Guest Speaker: Anthony Dreaver

Wilson Lattey introduced Anthony a well known local historian. Anthony spoke about the history of the Health Camps in NZ and the Otaki Camp in particular.

Health camps were established as a response to the poor health of many NZ children in the early part of the 20<sup>th</sup> century. Children attended and were given fresh air, exercise and food. Childrens weight gain was the measure of success! The Otaki Camp was built in the early 1930's by moving two rotunda buildings from Rotorua. The rotunda had housed injured and shell shocked WW1 returned servicemen. Other buildings were added over time and the health camps were very busy up into the 1960s after which time they fell out of use. One rotunda was demolished in 1963. The Otaki Health Camp closed in 2018 and the buildings, which

have a heritage listing, are managed by the Department of Conservation pending decisions on restoration and future use. A charitable trust called Friends of the Otaki Rotunda has been formed and Anthony is a Trustee. The object of the trust is to save and restore the site for community use.
